and Promotion Organization

OUR PEDAGOGY

Verbattle ensures learning without the effort of learning. This helps many children who have learner's fatigue to disconnect the stress of learning from the activity. Most children in the Academy would not even know that they are learning till they are asked to do self-evaluation. The absence of the undertone of learning and the compulsion to deliver can help more children to engage themselves positively in activities in a Verbattle class. The Academy enables a child's personality development along with improvement of the child's role in social development. The emphasis of communication skills, logical thinking, social skills, positive attitude, learning and retention skills and leadership skills can result in the **overall positive development in the child**. The Verbattle Academy functions as a centre for complementary and essential learning and skill development aiming at a **360 degree emotional, intellectual and functional development of the child**.

Verbattle believes in your **child's ability to learn**. Verbattle has worked with thousands of children till date and has achieved great results. In a Verbattle class, children have been able to **learn effortlessly** and in an unforgettable manner.

Verbattle deals with the available faculties in a child and ensures that the child does not have to be forced to learn or respond in any activity. The techniques in the class work by engaging the natural learning abilities and provide an environment for benefiting from the resources available to the state the needs of survival and achievement. Verbattle's techniques of **co-operative learning, collective engagement, logical understanding, mutual support and natural learning** help the participants to learn and understand more than in any other learning environment. Verbattle also uses fun activities such as games, drama and indoor sports to achieve skills like **decision making, creative thinking, analytical understanding and also positive behaviour** like **team work, democratic-leadership** and productive initiatives.

VERBATTLE FOUNDATION

Verbattle Foundation is a professional global debate education and promotion organization. Verbattle was born out of the need to make our society; democratic in approach, responsible in thinking and accountable in action, in addition to emphasis on civilized behaviour. Verbattle has been working with various sections of the society to achieve this objective. Verbattle has concentrated its work on children and youth with the hope that these sections of the society can give better and earlier results.
